

Linking to NorthTec through Google Scholar

Google Scholar will display links to articles found in **NorthTec databases**. Any available **FullText@NorthTec Library** links will appear automatically when searching on campus.

From home, you can adjust Google Scholar's settings manually.

The screenshot shows the Google Scholar settings interface. On the left, there are three navigation buttons: 'Google', 'Scholar', and 'Settings', each with a hand cursor icon. The 'Settings' button is selected. The main content area is titled 'Scholar Settings' and includes sections for 'Search results', 'Languages', and 'Library links'. Under 'Library links', there is a checkbox for 'NorthTec - FullText@NorthTecLibrary' which is checked. Below this, there are 'Save' and 'Cancel' buttons. At the bottom, a message reads 'Save your settings. To retain settings, you must turn on cookies'.

[Hypoglycemia and risk of death in critically ill patients.](#)

S Finfer, B Liu, DR Chittock, R Norton... - The New England ..., 2012 - europepmc.org

BACKGROUND: Whether **hypoglycemia** leads to death in critically ill patients is unclear.

METHODS: We examined the associations between moderate and severe **hypoglycemia** (blood glucose, 41 to 70 mg per deciliter [2.3 to 3.9 mmol per liter] and \leq 40 mg per ...

[Hypoglycemia-induced neuronal damage prevented by an N-methyl-D-aspartate antagonist](#)

T Wieloch - Science, 1985 - sciencemag.org

Abstract The possibility that neuronal damage due to **hypoglycemia** is induced by agonists acting on the N-methyl-D-aspartate (NMDA) receptor was investigated in the rat caudate nucleus. Local injections of an NMDA receptor antagonist, 2-amino-7- ...
